Three Levels of
Community Engagement

1 - Regular and Deep Partnership: Multiple times per week volunteer work with partner service organizations. Get to know people we serve, their families, the staff and leadership at the partner organization through collaborative work together.

2 - Regular Partnership: Once a week volunteer work with a partner organization. Get to know people we serve, their families, staff and leadership at the organization through collaborative work together.

3- Relationships and Awareness :
Developing connections and relationships with others, developing awareness about other people's work and contributions to the broader community. Building awareness among others about Project Horseshoe Farm's work. Potentially setting the stage for future collaborations.
